To Whom It May Concern:

Re: KIMBERLY LYALL

This letter is in support of Kimberly Lyall as a speaker for high school students. Recently the Lethbridge Collegiate Institute, a high school of 1300 students, hired Kimberly Lyall to perform at a Leadership Conference for about 50 high school students. Kimberly was the Keynote Speaker, to begin a day long Conference on leadership and team building.

From the time Kimberly stood up to speak, until the time her talk finished, an hour later, she held the group captivated. Her ability to connect with the adolescents was amazing. They couldn't get enough of her insights into her life stories. These students were seeing the world through her eyes, becoming more aware of the need to volunteer and make a difference in the lives of others, while expanding their own horizons.

Kimberly Lyall had a significant impact on the students of L.C.I. who attended the Leadership Conference. At the conclusion of her talk, students flocked to her, to hear more and to share their experiences with her. Kim established a rapport with these young people quicker than I have seen anyone do in a long time.

As a parent, teacher and school administrator, I highly recommend Kimberly Lyall to other secondary schools as an exceptional speaker. This is a young woman who can motivate adolescents to make the most of themselves and make valuable contributions to their school and community.

Sincerely,

Carol Steen

Hi Kim,

It was great to talk with you today, and glad to hear you are "back on track" with the challenges of your work.

I have enclosed an LCI grad Program for your keepsakes. It is interesting to note the last printed page "Memories at LCI" which was put together by the grads 2005.

I thought you might want to see one of the "greatest memories" of this graduating class, which you gave to them.

Thank you for that, and for the positive role model you are to young people.

Best wishes ... and keep in touch.
