March 11, 2002

To Whom it may concern;

Our School Division recently had the opportunity to have Kimberly Lyall make presentations to two of our schools. She presented to a group of 150 Grades 4 to 7 students at 1 school and to a group of 600 Grades 8 to 12 students at the other school.

Kimberly easily tailored her presentations to appeal to the different age groups. She has the unique ability to make every member of a large audience feel as if she is speaking to each of them individually. Her message is one of hope which helped each student feel that they can matter and make a real impact in this world. She was able to bring a message of hope out of the tragedy of recent world events.

After each presentation, Kimberly took the time to speak individually to many students at both schools. She is very up-beat and positive and her message has a long term impact on students.

I would strongly recommend Kimberly Lyall as a motivational and inspirational presenter to any school at any grade level. It is my intention to have her back to present to the other schools in our Division as soon as we can.

Yours truly,
